March 3rd 2017

We had Jay and Brodie install Cellar control in our cool room in November 2016.

*We were one of the first in the area to give it a go and have since found it to be a great move for our business. Going from weekly cleans to now every 8 weeks we are saving an average of **\$1,500 per month** by having the system installed whilst ensuring premium beer being poured!*

The time saving for us is massive. It takes a while to clean all 40 different lines!!

We have an ever-changing range of craft beers on tap so the system needed to perform as it claimed in order for it to be a success and it has proven to do so.

It's reassuring to know the beer comes out as good as the brewers intended.

Nobody wants to be the bar that has dirty lines.

I recommend the system without hesitation

A handwritten signature in black ink, appearing to read 'Laurence Van Dam', with a stylized flourish at the end.
